DR. ROBERT M. ADAMS.—The reputation of the Medical Discovery is such that, in the unanimous voice of all who have ever used it, it is not necessary to say anything on the subject, as the medical profession and the general public are well acquainted with the value of the Discovery. It is an unambiguous in its praise.

In presenting the Medical Discovery to your notice, I am not only presenting a knowledge of its curative powers, but also a knowledge of its value in curing most of those diseases to which the human race is so unfortunately liable. That most excruciating and dangerous of all diseases is cured by the Medical Discovery.

NURSING SORE MOUTH,

the natural action of your nose from stimulating tears to calm and clear slumber; and the natural Discovery becomes a fountain of blessings to husband and household.

In the more advanced stages of
CANKER
it extends to the stomach, resulting
DYSPEPSIA, a condition
which is nothing but canker on the stomach; then
intestines and
KIDNEYS.
Creating a sinking, gonn feeling, and an interference
to the cares of your family.
Your stomach is
RAW AND INFLAMED,
and you feel
some good

nourishment it contains, as the serotonous fluid
 nanker sets it up; their complexion loses its
 rose. For want of nourishment your system be-
 comes weak and flabby, and the fibres of your body
 coarsened. Then follow a train of diseases in which the M
 discovery is peculiarly adapted;

CURE;
 palpitation of the heart, pain in the side, weakness
 of the spine, and small evacuations of the blood,
 when you retire, irregularity of the bowels, and dis-
 most excruciating of diseases.

PILES.
 How many thousands of poor wretches are suffering
 this disease, and pining away a miserable life.

Impress on your mind that good old proverb, "An ounce of prevention is better than a pound of cure." In
MEDICAL DISCOVERY
 you have both the preventative and the cure, with
 great and good quality, that it will never, under a
 circumstance, do you no injury. You're truly,

This is a purely vegetable compound, prepared of strictly scientific principles, after the manner of the celebrated Holland Professor, Boerhaave. Because of its being a purely vegetable compound, it has been introduced into the United States, and is trusted more especially to those of our fatherland and kindred here over the face of this mighty country. With great success among them, I now offer it to the American public, knowing that its truly wonderful and virtuous merits must be acknowledged.

CAUTION!—Whoever expects to find in this a beverage will be disappointed; but to the sick, weak and lowly, singular remedial properties.

The great popularity of this delightful wine, has caused many imitations, which the public should be careful to purchase. Be not persuaded by any one until you have given ECKHART'S HOLLAND a fair trial. One bottle will convince you how
